Wild Wonders

# Inspiration Board

# Write Up

Inspired by nature's intricate details, this jewelry collection draws from two elements—pomegranate and mogra. The tightly clustered arrangement of pomegranate seeds symbolizes unity and abundance, while mogra's soft, rounded folds evoke a sense of warmth and embrace. The designs reflect a rich Indian aesthetic, blending cultural depth with a simple, delicate elegance. Each piece is designed to be a subtle yet striking statement, embodying grace and attention to detail, meant to capture your gaze with its understated beauty.

# Earring

This elegant earring draws inspiration from the vibrant pomegranate and fragrant mogra. It features asymmetrically placed spinel and rhodolite gemstones in deep red hues, evoking the richness of pomegranate seeds. A single pearl drop adds a soft, graceful touch, symbolizing the delicate beauty of mogra. The combination of bold color and gentle texture creates a striking yet refined statement piece.

# Ear Cuff

This ear cuff is inspired by the pomegranate and mogra, blending bold and delicate elements. Featuring asymmetrically arranged spinel and rhodolite gemstones in deep red, it mirrors the vibrant pomegranate seeds. Small pearls cascade along the cuff, embodying the softness of mogra blooms. The result is a unique, nature-inspired design that combines richness and grace in a modern statement piece.

**Thank  
you very  
much!**
